PITTSBURGH, PENNSYLVANIA 15216

September 2, 2020

Dear President Trump,

On behalf of Boilermakers Local 154, Pittsburgh, Pennsylvania I am writing this letter to endorse your campaign for President of the United States of America. I represent over 2,500 active and retired members in Pennsylvania, Ohio and West Virginia and your administration has convinced my members that you will protect the future of our industry.

As the United States continues to lead the world in oil and natural gas production it is imperative that we continue to battle over-regulations in the fossil fuel industries and fight for American energy production. My members and their families are dependent on these industries and it is imperative that we continue to develop new opportunities and energy infrastructure in America. Boilermaker jobs specifically rely on coal-fired power generation and we strongly encourage the advancement of Carbon Capture technologies which can secure future jobs for our members.

It is with great honor that I write this letter to endorse your campaign as you run for re-election of the President of the United States. I am happy to support your administration as you have proven to be a true friend of the Boilermakers, and I wish you the best of luck in your campaign.

If you need anything else, please do not hesitate to contact me at my office.

Sincerely,  
BOILERMAKERS LOCAL 154

John J. Hughes  
Business Manager
